Tupelo Deck Chaise – Riser Installation

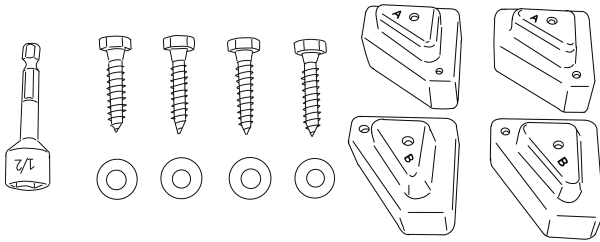

PARTS INCLUDED

1/2" SOCKET BIT

4 LAG BOLTS

4 WASHERS

4 RISER FEET

WHAT YOU'LL NEED

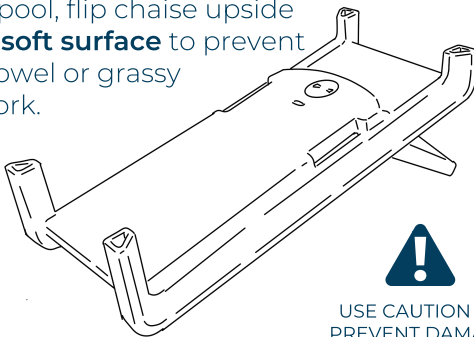

Cordless drill or ratchet with 1/2" socket

PLEASE NOTE

Always use 2 people to lift and move chaise
Installation should take place out of pool
Do not stand or step on chaise

1

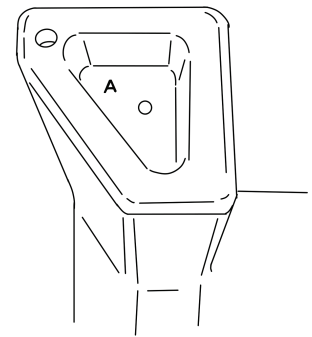

Out of the pool, flip chaise upside down on a **soft surface** to prevent damage. Towel or grassy area will work.

USE CAUTION TO
PREVENT DAMAGE

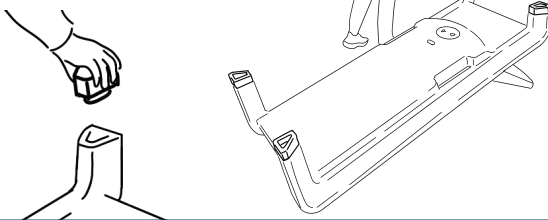

2

Locate bottom of feet areas marked **A** and **B**.

3

Place the risers into the corresponding pockets on the bottom of the feet marked **A** and **B**.

4

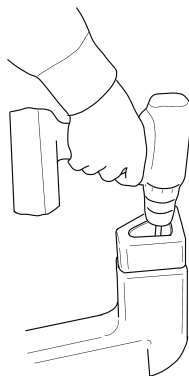

Using the 1/2 inch socket bit in your cordless drill, drive in the lag bolt with washer through the center hole. When the washer becomes seated and the riser is snug, stop tightening.

DO NOT
OVERTIGHTEN

5

Repeat step 4 until all four risers have been fastened and are snug.

6

Using 2 people, flip the chaise back into the upright position and place in desired area. Chaise will auto-fill when placed in water.
